Education

Telkom University (GPA 3.73)

Bachelor of Computational Science

Sept. 2013 – May 2017

Bandung, Indonesia

Skills

Programming: Python, JavaScript (NodeJS), Bash

Technologies: AWS, GCP, Linux, Ansible, Jenkins, Git, Terraform, Serverless, Sonarqube, Docker, Kubernetes, Prometheus, Grafana

Portfolio: <https://github.com/levi-x00/my-devops-portfolio>

Experience

PT Innovation Cloud Service Compute

Sept. 2024 – Present

DevOps Architect

Jakarta, Indonesia

- Architected AWS Landing Zone using Terraform for secure multi-account environments.
- Designed EKS platform for AI/ML workloads with scalability and cost optimization.
- Standardized infrastructure using reusable Terraform modules, improving deployment efficiency.
- Led ECS to EKS migration and built CI/CD pipelines using GitHub Actions and AWS CodePipeline.

Feedloop

Apr. 2023 – Apr. 2024

DevOps Engineer Lead

Bandung, Indonesia

- Led design and implementation of CI/CD pipelines for infrastructure provisioning (VPC, Transit Gateway, ECS, EKS) using AWS CodePipeline.
- Optimized CI/CD performance by reducing S3 synchronization time, improving deployment speed.
- Implemented cost optimization via automated Lambda scheduling for non-production resources.
- Automated Nginx configuration deployment and SageMaker endpoint provisioning using CodePipeline and Lambda.

SEON Technologies

Sept. 2022 – Feb. 2023

DevOps Engineer

Jakarta, Indonesia

- Enhanced Terraform-based infrastructure provisioning for AWS, improving maintainability and scalability.
- Maintained and improved CI/CD pipelines using TeamCity and AWS CodeDeploy for reliable application delivery.

Cloud Comrade

Jun. 2021 – Aug. 2022

Cloud Consultant

Bandung, Indonesia

- Designed and deployed AWS infrastructure including VPC, Transit Gateway, EC2, RDS, and secure SFTP solutions.
- Implemented Jenkins pipelines to automate CloudFormation deployments across environments.
- Automated Nexus repository provisioning using Infrastructure as Code (CloudFormation).

Xtremax

Oct. 2017 – Jun. 2021

System Engineer

Bandung, Indonesia

- Automated AWS and GCP infrastructure provisioning using Infrastructure as Code (CloudFormation, Deployment Manager).
- Built serverless security alerting and centralized logging (Lambda, GuardDuty, OpenSearch).
- Managed monitoring (Zabbix), SFTP migration to AWS File Gateway, and reporting with BigQuery/Data Studio.

Certifications

- AWS Certified Solution Architect Professional (SAP-C02)
- AWS Certified Security Specialty (SCS-C02)
- AWS Certified DevOps Professional (DOP-C02)
